

What's required to start a Chapter

Basically you need a minimum of 5 persons, President, Vice President, Secretary, Treasurer, and Road Captain to start a chapter provided that you have the authorization of your sponsoring post stating that they recognize the [American Legion Riders](#) as a program of the post and assume the liability of such program by way of a letterhead from your post stating so. This should be signed by the post commander and adjutant and sent to department. This must be voted on at a regular post meeting and the number of members present at the meeting should also be noted. There should be information forthcoming from department headquarters as the newly elected officers compile necessary information on requirements for new chapters wishing to form. All pre-existing chapters needed to be re-authorized in order to start up again since the "cease and desist" order on October 2009.

I have attached the Constitution and By-Laws of The [American Legion Riders](#) Department of [Pennsylvania](#). This will be your guide to use as you form your new chapter.
